Business Environment**Economic Scenario:****Global:**

- The International Monetary Fund (IMF) has reported that Global economic activity continues to firm up. Global output is estimated to have grown by 3.7 percent in 2017, which is ½ percentage point higher than in 2016. The pickup in growth has been broad based, with notable upside surprises in Europe and Asia. Global growth forecasts for 2018 and 2019 have been revised upward by 0.2 percentage point to 3.9 percent. The revision reflects increased global growth momentum and the anticipated impact of the recently approved U.S. tax policy changes which are expected to stimulate activity. In growth terms in 2017, the broadest synchronized global growth upsurge has happened since 2010.
- Emerging and developing Asia will grow at around 6.5 percent over 2018-19, broadly the same pace as in 2017. The region continues to account for over half of world growth. Growth is expected to moderate gradually in China, pick up in India, and remain broadly stable in the ASEAN-5 region.
- The International Monetary Fund (IMF) remains bullish on India's growth potential and has retained its GDP

forecast for the country at 6.7 per cent in 2017 and 7.4 per cent in 2018. In its World Economic Outlook Update, IMF also estimated that the Indian economy would grow by 7.8 per cent in 2019, which make the country the world's fastest-growing economy in 2018 and 2019.

National:

- Central Statistics Office (CSO), reported GDP growth of 7.1 percent in 2016-17. The pre-Budget Economic Survey 2018 predicted that India's GDP growth will accelerate from 6.75% in the fiscal year ending March 31, 2018 to 7-7.5% in 2019. India will recover from the double impacts of demonetization and goods and services tax (GST), enjoy an export surge arising from the global economic boom, and reap the fruits of reforms.
- The economic survey says the launch of the Goods and Services Tax (GST), resolution of long-festering bad loans under the Bankruptcy Code, the implementation of a bank recapitalization package for public sector banks and further liberalization of the foreign direct investment regime will lift GDP growth, which began to accelerate from the second half of the current fiscal year. The survey has however said that risks from rising oil prices could have dampening effect on GDP growth in the coming year.
- India's rank inched up by one place to 130 in the 2017 World Bank Survey that

Readymix Concrete Unit at Thanjavur

measures the ease of doing business in various countries. The government is optimistic regarding the improvement in India's rank in the 2018 survey (to be released on October 31 2018) on the back of reforms taken to improve the efficiency in granting construction permits, starting a business and resolving insolvency.

- GST has had a transformative effect on the Indian economy and there has been a 50% increase in the number of indirect taxpayers which portends well for tax compliance and revenue growth.
- Deposits grew at the rate of 6.66% to Rs.11,474,989 crore till March 2018 while the bank credit growth grew at 10.32% over the previous year to Rs.86,50,714 crore over the same period, according to the Reserve Bank of India (RBI) data.
- Credit to major sub-sector such as textiles, chemical and chemical products, engineering, food processing, rubber, plastic and their products accelerated. However, credit to infrastructure, basic metal and metal products, cement and cement products, and petroleum, coal products and nuclear fuels contracted, said the central bank.
- Credit to the services sector increased by 13.8% during FY 2017-18, as compared with an increase of 16.9% in March 2017, while that to agriculture and allied activities increased by 3.8% against a credit growth of 12.6% in March 2017. Credit to Industry increased by 0.7% in March 2018 as compared with a contraction of 1.9% in March 2017.
- Gross NPAs of Indian banks, after staying below the Rs.1 lakh crore mark between FY06 and FY11, began to gallop from FY12. Jumping to Rs.1.4 lakh crore in March 2012, gross NPAs proceeded to rise almost six fold over the next five years to Rs.7.9 lakh crore by March 2017.
- Therefore, as banks' NPAs soared in the last five years, bad loan provisions rose in

tandem. This has directly dented their reported profits. Aggregate net profits of Indian banks have slumped from about 91,000 crore in FY13 to 43,900 crore by FY17.

- According to the Reserve Bank of India's Financial Stability Report of December 2017, NPAs in the banking system currently stand at 10.2% of all assets. Related frauds amounting to INR 612.6 billion in the last five financial years and governance failures on account of integrity and competence issues plague the banking system.
- Crisil expects the stock of gross NPAs for Indian banks to stand at 10.5% by March 2018 and stressed assets to top out at 14%. But provisioning and losses from these NPAs are expected to stretch on for the next year or two.

At the State Level:

- The Gross State Domestic Product growth has been estimated at 8.03% during 2017-2018 and State is expected to surpass 9% during the year 2018-19 (Source: Government of Tamilnadu Budget 2018-19).
- The State endeavour to retain its position as a top investment destination by creating favourable eco-system.
- A major structural reform initiative - a single-window portal, which will enable investors to obtain the required clearances and renewals across 11 departments has been launched.
- The State has also enacted the Tamil Nadu Business Facilitation Act, 2018, to strengthen the single-window system by stipulating timelines for each approval and providing for deemed approval in respect of certain clearances.
- Concerted efforts are being taken to improve the ranking of the State on the ease of doing business index.
- SIPCOT will develop additional land-bank of 9,030 acres to allot sufficient land to new investors with special focus in the

southern parts of Tamil Nadu, especially along the Chennai - Kannyakumari Industrial Corridor and the Madurai-Thoothukudi Industrial Corridor. This will open business avenues in the MSME sectors.

- The Government is to promote Aero Space Park at Vallam Vadagal in Kancheepuram District, TICEL Bio-Park at Coimbatore, Plastic Industrial Park at Ponneri, Medi Park at Chengalpattu and a defence industrial production corridor.
- The first Global Investors Meet was successfully conducted in September 2015.
- The State Government has proposed to conduct the second Global Investors Meet on 23rd and 24th January 2019.
- SIDCO will construct multi-storeyed work sheds for micro units at a cost of Rs.30 crores in Ambattur Industrial Estate.

Capital/ Reserves:

- Net Capital and Reserves was Rs.522.06 crores as on 31-03-2017 and it has increased to Rs.543.43 crores as on 31-03-2018 due to increase in net profit during the current year.
- Capital Adequacy Ratio has increased from 23.13% in 2016-17 to 27.05% in 2017-18.

Loans and Advances:

The Corporation has achieved the following performance in respect of sanction and disbursement for the FY ending 2017-18 as against the performance in the FY 2016-17:

Table-1. Operational Performance of the Corporation

LOAN	(Rs. in crores)	
	2017-18	2016-17
SANCTIONS	798.71	1,234.15
DISBURSEMENTS	708.12	1,065.35
RECOVERY	1090.41	1,304.69

- The shortfall in performance in 2017-18 was due to various factors like
 - Decline in work orders given by TWAD as well as TANGEDCO to their suppliers / contractors during that year resulted in decreased performance of Bill Financing facilities extended by the Corporation.
 - Temporary Impact of demonetization and GST
 - Due to stiff competition in the market from the Banks - As the commercial banks are offering loans with lower rate of interest and with longer repayment periods as they are flush with funds.
 - Higher rate of interest to the end users on comparing the market trend is the main issue affecting the business of the Corporation.

Strategy to improve the performance:

- With a view to offer loans at sub 10% rates, TIIC also effected 0.25% reduction in the Prime Lending Rate (PLR) from 12.95% to 12.70% to all existing loans and new sanctions. The effective rate of interest now stands at 9.70% to 10.95% only after taking into consideration of 3% interest subvention scheme and it is 9.95% for the new clients/first generation entrepreneurs.

- With a view to increase the Sanction and Disbursement of loans and to achieve higher loan portfolio size, it has been decided to make concerted and focused business promotion efforts by conducting field level business campaigns to attract more loan enquiries / applications.
- To overcome the constraints of having multiple working capital term loan per unit and the need to repay working capital when it is actually required for regular/continuous operations, increased installments of repayment etc., a new scheme viz. "Flexi Working Capital Term Loan Scheme" was introduced during March 2018.

Sanction	67.63	95.33	312.14	576.21
Disbursement	64.39	86.07	312.14	576.21

- The shortfall in performance in 2017-18 was due to various factors as discussed under Table-1 of Operational Performance of Corporation.
- Intensive Business Development Campaigns were organized during June / July 2017 at all Branches and Field Offices of the Corporation to give thrust for sanction and disbursement from the beginning of the financial year. ANNEXURE TO THE INDEPENDENT AUDITORS' REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-Section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Tamil Nadu Industrial Investment Corporation Limited ("the Company")**, as of March 31, 2018 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting Issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards of Auditing, Issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both Issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining and understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
